### **Man's watch "TIMEWALKER CHRONOGRAPH XXL"**

AUTOMATIC 9671, STAINLESS STEEL

The clear-cut contours of the TimeWalker Chronograph combine traditional values with the aesthetics of the 21st century. They bear the unmistakable influence of Bauhaus-inspired form and functionality as clearly as the boldly contoured, airy lines of architectural forms that have only been made possible thanks to state-of-the-art materials and methods. The case of this timepiece still appears extremely light despite its imposing diameter of 43 mm. The self-winding mechanical movement with its built-in chronograph function is an expression of the art of watchmaking at its finest.

*Value: CHF 5 000,-*

### **Lady's Writing Instrument "ETOILE MEDITERRANEE"**
